

Affirmation 1

I believe in the inherent worth of each student.

Elaboration

Every child committed to my care has worth and importance. My students don't have to prove that to me. I value them as human beings, and I realize that their parents have entrusted them to my care. I will treat my students just as I would want a child of my own to be treated.

Guided Reflections

I believe in the inherent worth of each student.

Focus on your most challenging student. What is the inherent worth of this student?

What are some of his or her positive qualities?

List two things you can do to help increase appreciation for life and living things within your classroom for all students.

1. _____
2. _____

How would you want a child of your own to be treated in school?
